FRANKOMA POTTERIES, Inc., has been recognized in the field of Ceramic Art since 1933. It is an outgrowth of pioneering with Oklahoma clay carried on since 1927 by its founder, John N. Frank. This is Oklahoma's only pottery. Its unique styling and coloring have been inspired by its natural setting, "The Home of The Red Man", and the pioneering spirit of the state Will Rogers loved to call his home. All Frankoma pottery is made entirely of Oklahoma clay.

It is a most durable, tempered pottery, made entirely by Frankoma's own unique processes. Even the loveliest flower and fruit bowls can be used safely for baking. Its pitchers are all dripless, and every piece guaranteed satisfactory. Every piece is an original creation by Frankoma in color and design, and is made FOR THOSE WHO LIKE NICE THINGS!
